## PROPERTY DETAILS

This is the Foxmoore 2 in Hampton with large Family Room opening up to kitchen. This home is located on a Cul De Sac street. The sliding glass doors from living room to Lanai have been removed giving the home an additional 260 sq ft of A/C living space. Walls of glass bring the beauty of the lake views into the home. The entire home is tiled. The home has interesting and unusual features. There is a built-in Bar in the Lanai and an unusual Pillar display in the family room. Interesting lighting in the living room which wraps around the dining room is also a focal feature. In addition there is a brick patio overlooking the lake perfect for your barbeque. There is crown molding in many rooms. A/C and water heater were replaced in 2014. This interesting property is awaiting its new owners.
